ABOUT ME

Design Engineer and Front-end Developer with backend, some DevOps, and testing experience, offering a well-rounded skill set that makes me better apart from other developers.

EXPERIENCE

Axiom

Design Engineer

Aug 2025 – Present

US, Remote

- Joined an amazing team as a Design Engineer.

Sellhub

Founding Design Engineer

Jun 2024 – Jul 2025

Portugal, Remote

- Redesigned and optimized the entire dashboard, store layouts, and checkout page, enhancing user experience and performance.
- Optimized checkout performance, reducing load time by 20% leading to a 15% increase in conversions.
- Built reusable React components and email templates, reducing development time by 25%.

Profound / TryCompai

Design Engineer

Apr 2025 – May 2025

US, Remote

- Developed and designed marketing page's Bento card components, converting images into animated elements using GSAP and SVG animations.
- Optimized legacy Next.js layout code by leveraging modern Next.js features to improve performance.

Mentra.gg

Front-end Developer

Feb 2024 – Jun 2024

Cyprus, Remote

- Took full responsibility for developing a website from scratch, ensuring a clean and responsive frontend with smooth animations - Entire UI/UX design was created by myself.

Freelance

Design/Full stack Developer

Jan 2023 – Dec 2024

India, Remote

- Designed and developed responsive websites from scratch, ensuring clean UI/UX and smooth animations. Managed end-to-end project execution, from wire framing and prototyping to deployment and maintenance.
